Experience

Digital NEST, Frontend Developer Intern

Aug 2023 – Aug 2024

Central Valley-based Web and Graphic Design Nonprofit

- ❖ Coordinated with clients in education and recreational industries to produce, develop, and maintain websites using WordPress, JavaScript, and PHP, boosting overall page visits by 200% and reducing user bounce rates by 56% on avg.
- ❖ Developed MapBox feature maps with 270+ data points; Delegated development workloads on Asana and GitHub
- ❖ Created internal tooling job boards and web-scraped geolocation data on Google Maps using a Python function
TypeScript / JavaScript / jQuery / WordPress / PHP / React / NodeJS / Python

Catalyze SV, Frontend Web Developer

Jun – Sep 2023

Property Development Organization

- ❖ Developed a JavaScript search function that locates nearby housing projects, which tripled incoming site traffic
- ❖ Strategized with backend developers to list 20+ properties from Shape SV and resolve CORS security issues
JavaScript / Wix Velo / HTML / CSS

Gilroy Hacks, Co-Founder, Event Director

Jan 2022 – Jun 2023

Student-led High School Hackathon operated under Hack Club, a 501(c)(3) nonprofit

- ❖ Directed event logistics and outreach for hackathons that served 50+ middle and high school students
- ❖ Raised \$2,000+ to fund prizes and swag by partnering with local businesses in Gilroy and Morgan Hill
- ❖ Led weekly Zoom meetings to discuss scheduling and logistics; Designed/built website from scratch
JavaScript / HTML / CSS

Education

University of California, Berkeley

Aug 2024 – Est. May 2026

B.A. Data Science

- ❖ Coursework: Data Structures, AI/ML, Linear Modeling, Data Engineering, Efficient Algorithms
- ❖ Clubs/Orgs: VSA, Cal VSA Lion Dance

Gavilan College, Dual Enrollment with High School

Aug 2019 – May 2023

A.S. Computer Programming

Projects

Internal bizzNEST Career Harvest Job Database

Apr – Aug 2024

Job Repository that Filters Relevant Internship Opportunities for Digital NEST Interns

- ❖ Collated 200+ internship listings from LinkedIn and Indeed into a filterable search database using Docker & SQL
- ❖ Designed an internal tool connecting alumni interns to partner companies, helping 2/3 of interns secure jobs
React / TypeScript / JavaScript / NodeJS / Docker / SQLite

ParkRX Monterey County Feature Map – parkrxmontereycounty.org

Feb – May 2024

Dynamic Park Feature Map with 270+ Web-Scraped Parks

- ❖ Implemented a search function that filters web-scraped data from more than 20 unique city/county park websites
JavaScript / jQuery / WordPress / PHP / MapBox / NodeJS / Python

American Sign Language (ASL) Recognition ML App – jamesvdinh.github.io

Jan – Apr 2023

Computer Vision Model Trained on a Dataset of 87,000+ Data Points

- ❖ Trained a TensorFlow model to learn 26 ASL gestures from the NIDCD which feeds into a MediaPipe website application that interprets sign language from the webcam's live feed via OpenCV
Python / TensorFlow / MediaPipe / OpenCV / JavaScript

Skills

- ❖ JavaScript, React, Python, NodeJS, jQuery, TypeScript, GatsbyJS, WordPress, Wix, PHP, GraphQL, SQL, SQLite, C++, Docker, Flask, HTML, CSS (SASS), Git, REST API, MapBox, TensorFlow, MediaPipe, OpenCV, Pandas, NumPy
- ❖ Personal: Guitar, Piano, Photography, Table Tennis, Chess, Badminton
